## EDUCATION

### Technical University of Munich

Munich, BY

Master of Science, Informatics / Computer Science

Oct 2025 – Present

- Specialization in Software Engineering, Cybersecurity and Machine Learning and AI

### Technical University of Munich

Munich, BY

Bachelor of Science, Informatics / Computer Science

Oct 2022 – Sep 2025

- Minor in Management and Economics / Relevant Coursework: Software Engineering, Programming, Data Structures and Algorithms, Computer Networks, Operating Systems, Higher Math, Theoretical Informatics

### Goethe University Frankfurt

Frankfurt, HE

Bachelor of Science, Economics and Business Administration

Oct 2021 – Sep 2022

- Reorientation of studies towards computer science

## EXPERIENCE

### R&D Software Engineering

Feb 2026 – Present

Siemens AG / FT-RPD-CED-EDC, Working Student

Munich, BY

- Development of self location systems using Mesh Networks and Automated Guided Vehicles

### IT-Infrastructure and Administration

Jun 2025 – Feb 2026

Siemens AG / CYS-OE-IS, Working Student

Munich, BY

- Deployment and configuration of IT infrastructure for Cybersecurity (Proxmox)
- Automation of synchronization between different self hosted services

### Software Engineering Intern

Oct 2024 – Feb 2025

TUM / iPraktikum / Siemens, Internship

Garching, BY

- Development of iOS application for real time alerts in factories
- Focus on SwiftUI development and Kubernetes Deployment

### Software Engineering Coding Camp

Sep 2024 – Sep 2024

Itestra GmbH, Summer Coding Camp 2024

Munich, BY

- Development of Microsoft HoloLens Game using MRTK3, tracking of real objects in AR.

## PROJECTS

### UPlan / University Planning App

React, Next.js, Supabase

- WebApp allowing users using SSO to plan their studies tailored to german universities
- Global and per program statistics, per course markdown notes, ECTS and grade calculation

### Playwright Test Suite / Theia IDE

TypeScript, Playwright

- Comprehensive test suite for the Theia IDE using Playwright as part of my bachelor thesis
- Focus on scalable end to end testing, including the development of a custom test runner

### Personal Portfolio / tobiwn.me

Typescript, Tailwind, VueJS

- Single Page App featuring dynamically rendered sections, over layed page information and real time REST

### SafeGuard / Siemens

Swift, SwiftUI, Supabase, Docker

- Real-time EHS iOS app to inform workers and guests about upcoming hazards in Siemens factories

## SKILLS

**Programming Languages:** Java, Python, C/C#, SQL, JavaScript/TS, HTML/CSS, Rust, Dart, Swift, OCaml

**Developer Tools:** PyTorch, Git, Docker, VS Code, Visual Studio, PyCharm, IntelliJ, CLion, Rive, Slack

**Personal Interests:** Raspberry Pi, Apple Ecosystem, Science, Robotics, Music, Astronomy

**Languages:** German (native), English (fluent), Chinese (basic), Japanese (basic)
