Education

Technical University of Munich — **Munich, BY**
Master of Science, Informatics / Computer Science — Oct 2025 – Present
- Specialization in Software Engineering, Cybersecurity and Machine Learning and AI
- Participation in Healthcare Innovation Program
- Relevant Coursework: Deep Learning, Webapplication Security, DevOps, Cryptography, Causality, Legal Tech, Cybersecurity

Technical University of Munich — **Munich, BY**
Bachelor of Science, Informatics / Computer Science — Oct 2022 – Sep 2025
- Minor in Management and Economics
- Relevant Coursework: Software Engineering, Functional Programming, Data Structures and Algorithms, Computer Networks, Operating Systems

Goethe University Frankfurt — **Frankfurt, HE**
Bachelor of Science, Economics and Business Administration — Oct 2021 – Sep 2022
- Reorientation of studies towards computer science

Helene-Lange-Gymnasium Dortmund — **Dortmund, NRW**
Abitur, General Qualification for University Entrance — Oct 2013 – Aug 2021
- Intensive courses in mathematics, biology, english and computer science

Experience

Cybersecurity Strategy — **Jun 2026 – Present**
Deloitte / Technology, Working Student — *Munich, BY*
- Cloud Security and Transformation consulting

R&D Software Engineering — **Feb 2026 – May 2026**
Siemens AG / FT, Working Student — *Munich, BY*
- Self localisation of edge devices using Mesh-Networks on mqtt
- Integration with autonomously guided vehicles

IT-Infrastructure and Administration — **Jun 2025 – Feb 2026**
Siemens AG / CYS-OE-IS, Working Student — *Munich, BY*
- Deployment and configuration of IT infrastructure for Siemens Cybersecurity (Proxmox)
- Development of onsite monitoring systems
- Automation of intra service synchronization

Software Engineering Intern — **Oct 2024 – Feb 2025**
TUM / iPraktikum / Siemens, Practical Course — *Garching, BY*
- Developed the iOS application ”Safeguard” that tackles EHS challenges
- Focus on Swift UI development, Kubernetes Deployment, Supabase Backend

Software Engineering Coding Camp — **Sep 2024 – Sep 2024**
Itestra GmbH / Summer Coding Camp 2024 — *Munich, BY*
- Focus on modeling and development of Unity Applications

Audit and Finance — **Dec 2021 – Jul 2022**
DSJ AG, Working Student — *Frankfurt, HE*
- Annual audit of medium to large financial services, including PIE clients
- Audit of financial intermediary, including audit according to 34f GewO

Projects

CareDesk
FastAPI, Langchain, CI/CD, Terraform, K8s

- Microservice based clinical organization tool, including appointment booking, patient data and genai integration
- Langchain integration with FastAPI microservice and vector database for scalable and personalized queries

Neurobridge
React, Supabase, Healthcare
- A two sided integrated platform for tetraplegic that got a BCI implant, used in real clinical setting
- Communication and tracking for patients and caretakers, including a patient portal and a caretaker dashboard and possible training of BCI chip on the smartphone app

UPlan
React, Supabase, Auth
- Developed a single page webapp that helps students keep track of their course work / study progress
- OAuth with multiple providers, statistics, continous deployment

Playwright Test Suite / Theia IDE
TypeScript, Playwright
- Developed a comprehensive test suite for the Theia IDE using Playwright during my bachelor thesis
- Focus on scalable end to end testing, including the development of a custom test runner

Siemens Safeguard
Swift, SwiftUI, K8s
- Realtime iOS app that utilizes device proxmity and personalized settings for in factory warning of EHS specified hazards

Skills

Programming Languages: Java, Python, C/C#, SQL, JS/TS, HTML/CSS, PHP, Dart, Swift, OCaml, Rust
Developer Tools: Git, Docker, Ansible, Terraform, Kubernetes, Slack, Mira, Draw.io, IntelliJ
Peronal Interests: Raspberry Pi, Selfhosting, Embedded Systems, Robotics, Aerospace, Neuroscience
Languages: German (native), English (fluent), Chinese (basic)
